

# APPROVED TESTER

is proud to be an Associate Member of the  
Construction Fixings Association

**During the year 2019**

We support the CFA objective of  
“Ensuring Best Fixings Practice” by:

- Providing a high quality on-site anchor testing service in the following categories:
  - General Purpose Anchor Testing
  - Seasonal Decorations
  - Scaffold Ties
  - Remedial Wall Ties
  - Post-installed Rebar
  - Safety Harness Eyebolts
- Testing fixings to the CFA Guidance Note “Procedure for site testing Construction Fixings”
- Maintaining test equipment that is regularly calibrated
- Recording results to the CFA format
- Employing “Competent Testers”

As an Approved Tester we have met strict criteria of the Construction Fixings Association.

For full details on our testing capabilities, the Guidance Note “Procedure for site testing Construction Fixings” and a wealth of other support material on Construction Fixings visit the CFA website:
